VOLUME XXXV NO. 18

CROSSFIELD, ALBERTA, CANADA, THURSDAY, MARCH 27TH 1941

5 CENTS A COPY

Roosevelt Observer Returns

Col. William J. Donovan (right) checks in with a custom officer at the trans-Atlantic Clipper base in New York City, as he returned after completing a 25,000-mile tour of inspection of Europe and Africa. Col. Donovan was reported to be acting as an unofficial observer for the Administration.

Successful St. Patrick's Tea

A very successful St. Patrick's tea was held by the Dog Pound Rod Cross Society on March 18th. The hall was decorated with white and green streamers and green shamrocks. A total profit of \$68.38 was realized from the tea and sale of tickets on a lace tablecloth. The table cloth, kindly donated by Mrs. M. J. Elliott, of Dog Pound, was won by Mrs. Jones. As each person paid their admission at the door a number was given them.

Later in the afternoon corresponding numbers were put in a hat and twelve tickets drawn. The persons having these lucky numbers were each given a war savings stamp. This was an interesting part of the afternoon. If a stamp was not claimed immediately another number was drawn.

Although the Dog Pound Society is not large it is energetic. A number of boxes of refugee and service garments have been sent in to the Calgary office. Besides this, during January \$150 was donated for comforts for the Women's Auxiliary Overseas; \$50 was donated to the Mobile Kitchen Fund during March; and now \$70 is to be sent in to be used where it is most needed.

CROCKETT - NORTHCOOT

Miss Etta Northcott, daughter of Mr. and Mrs. Harry Northcott of Airdrie, became the bride of Clarence K. Crockett of Airdrie, son of Mr. and Mrs. William Crockett of Nanton, in a quiet wedding ceremony in Calgary on Thursday, March 6. Rev. A. R. Huband of Knox United Church officiated.

The bride wore airway blue with silver trimmings and accessories, and a corsage of roses.

After a short honeymoon, which was spent in Calgary and Nanton, Mr. and Mrs. Crockett returned to Airdrie where they will reside. Mr. Crockett, who is at present employed by the I. H. C. agent, is awaiting the call to commence four-months' training in the military camp at Camrose.

Nanton News.

Frank Collicutt recently sold his herd bull, one of the last sons of Prince Domino 10th, to Cross Bros. of Nanton, for \$1,000.

Alberta's road expenditures during the past ten years have averaged \$1,000,000 more a year than the revenue derived from gasoline taxes and car licenses, it was declared by Hon. W. A. Fallow, Minister of Public Works when he spoke in the Budget debate in the Legislature. During the 10 year period total expenditures have been \$50,596,000 and total revenue amounted to \$42,990,122. When the costs of administration were added to expenditures, the total in excess of receipts amounted to approximately \$10,000,000. In order to prevent repetition of previous misunderstandings, Mr. Fallow said he was only presenting statements which were examined and certified by the Provincial Auditor's Department as correct.

LOCALS

Mr. J. Crocker, who is ill in the Colonel Belcher hospital, Calgary, is reported to be slightly improved.

Ken. Hammell of the R.C.A.F., Calgary, spent the week-end with Mr. and Mrs. H. T. Lightfoot.

Mr. and Mrs. Jaycock of Edmonton spent a few days last week at the home of Mr. and Mrs. Charles Fox.

Rev. George Pybus and Mrs. Pybus, of Carstairs, were guests at the United Church manse on Wednesday evening.

The high school is giving a banquet tomorrow (Friday) night in honor of the hockey team. The parents of the team will also be guests.

The regular meeting of the United Church Ladies' Aid will be held in the church parlor on Wednesday, April 2, at 3 o'clock.

Mrs. Price of Carstairs has been appointed as local telephone agent to replace Mr. Crocker who has resigned the position on account of ill health.

Jack Williams, who formerly resided here and is now with the R.C.A.F. in Calgary, was a weekend visitor in town, a guest at the P. H. Fleming home.

A family reunion was held at the home of Mrs. M. Ruddy in Calgary on Sunday, when Mr. and Mrs. Ahlens, Edna, Mr. and Mrs. Chas. Fox and Gordon, and Mr. and Mrs. F. Ruddy and a family motored to the city to celebrate Mrs. Ruddy's birthday.

Rev. H. V. Ellison, along with a number of laymen from Calgary, attended the annual meeting of the Boys' Work Board at Red Deer on Saturday. Mr. Ellison was elected to the Board as a member at large, and was also appointed on Camp committee. At this meeting, it was with regret the resignation of the Boys' Work Secretary, George Miles, was received.

Wedding Dance

One of the nicest social events of the season was held in the East Community hall on Wednesday evening, when a wedding dance was given for Mr. and Mrs. Edmond C. Whittaker, who were married last week. There were about 140 guests present.

The hall was beautifully decorated for the occasion in pink, white and silver.

At midnight, a delicious lunch was served. The toast to the bride was proposed by Mr. Chas. Fox, and a toast to the groom by Mr. O. E. Jones.

An enjoyable sing-song, led by Mr. Verne Thompson and Miss Brooker, followed after which dancing was resumed to the music of Taylor's orchestra.

Red Cross Society

The following financial statement for the local branch of the Canadian Red Cross Society covers the 15 month period ending December 31st 1940.

Receipts:	
Donations 1939 Campaign	\$1159.75
Donations 1940 Campaign	812.05
	Total \$1971.80
Expenditures:	
Contributions remitted to Division	\$ 785.00
Material purchased from Division	40.04
Material purchased locally	195.00
Postage and stationery	7.15
	Total \$1027.19
Balance in Bank at December 31st, 1940	\$ 944.61
	E. Kinsey, Sec. Treas.

VICTORY WHEEL WINNERS

Following are the winners of War Savings Certificates for last Friday afternoon on the Victory Wheel being operated at the Chronicle office.

J. B. McCaskill
Mrs. Agnes Murdoch.

Organize For War Services Drive

The public meeting held in the U. F. A. hall Monday evening to organize the district for the six-income drive in connection with the Canadian War Services Fund was fairly well attended. The meeting was presided over by J. Hesketh, president of the Crossfield and District Board of Trade.

The main speakers for the evening were: E. W. Brunsden and Alex Walker of Calgary. Mr. Brunsden opened his talk with an outline of Alberta's objective, our own district here and its objective of \$1000. He followed up the work of the different organizations making the call for funds, and the magnificent work they are doing for the men of the Empire forces. He urged that a committee be formed from the different local organizations, and demand immediate action. Mr. Walker, Dominion Legion president, spoke of the splendid work the Legion is doing for the armed forces, giving the audience some very interesting items regarding the service being the boys in Canada and overseas. The work the Legion is doing in the U. S. A. and the wonderful help they were sending overseas in the way of donations and materials. The Red Cross will not receive any portion of this drive for funds their appeal being made last fall.

It was decided that a committee from the local Canadian Legion and Board of Trade would complete organization plans.

A hearty vote of thanks to the speakers was moved by the Rev. A. D. Currie.

Following the meeting the speakers and members of the Legion were entertained at lunch in the Oliver Cafe by the Board of Trade.

Surprise Party

The home of Mr. and Mrs. C. E. Richardson was the scene of a jolly surprise party when about forty people gathered to honor Miss Ruth Richardson and Miss Catherine Yellowlees before their departure to train in the General hospital in Calgary. After a evening of games, cards and good eats the girls were each presented with a lovely leather handbag.

Curlers' Hold Oyster Supper

The annual oyster supper, which is provided by the losing side in the President vs. Vice-president competition, was held Wednesday evening with President Fleming's side acting as hosts to Vice-president M. N. Jones and his allies. About 44 sat down to the delicious repast served by the Ladies' Curling Club.

Following the supper, the annual meeting was held, when the slate of officers elected for the 1941-42 season resulted as follows:

Hon. President, A. A. Hall;
President, M. N. Jones;
Vice president, A. E. Edlund;
Secretary-Treas., J. W. Halton;
Executive: J. Hesketh, C. H. McMillan, D. W. Carmichael and B. Lilley.

Reviews Old Regiment

Prime Minister Winston Churchill meets "Sandy", mascot of the Royal Scots Fusiliers. Prime Minister reviewed the regiment that he commanded during the last war, on a recent tour of inspection. He sets a good example carrying his gas-mask in the container strapped over his left shoulder.

BRITAIN'S BIGGEST BABY INDUSTRY

Equips Spitfires With Parts Made from Powder.

Shell nose caps are being made in plastics.

Great Britain's biggest baby industry is today devoting 75 per cent of its plant, brains and energy to turning out plastics for the fighting forces.

Out of a plain powder made from phenol and formaldehyde giant presses mould in hard steel dies have come a vast range of war material—in factory equipment, small ship components, the controls and wing sections of Spitfire fighters.

Lightness, strength and fire resistance are qualities which make plastics particularly useful in aero plane work.

Despite these demands, the British plastics industry last year shipped abroad no less than 150,000 English pounds worth of its moulding powders. It did it by rationalising itself into a single economic unit for export trade and raw material distribution.

Australia has been the biggest buyer. The main markets have been within the Empire but South America is steadily increasing her demands, particularly for articles made from plastics such as crockery, door fittings and similar domestic accessories.

More and more plastics are coming into their own as a substitute for the less strong metals; for example, for cistern ball cocks.

Laminated plastics, however, are of enormous strength as their use in the famous Spitfires demonstrate.

Takes High Post

Sir Percy Noble
 In a move regarded as strengthening the navy against the German submarine menace, Admiral Sir Percy L. H. Noble, R.C.N., C.V.O., has been appointed to act as Commander-in-Chief of the British naval forces guarding the western approaches to the British Isles. Sir Percy was Commander-in-Chief of the China Command from 1937-40.

Dr. K. W. Neashy
 Director, Agricultural Department
 North-West Line Elevators Association
Cereal Varieties
 Ten different varieties of hard red spring wheat are officially recommended for use in various parts of the prairie provinces. As a result of extensive experimental work, it is known fairly well to what conditions each variety is adapted. In each of the three provinces, a Cereal Variety Zonation Committee is responsible for making official recommendations as to the varieties which should be grown in each district. These recommendations should be used as a general guide in making a choice. It is, of course, recognized that there are local districts to which varieties not officially recommended may be well adapted. However, it is wise to follow the official advice unless there is a very good reason for not doing so. Seven varieties of oats, eleven of barley and three of flax are to be found on the recommended lists.

In order to assist government institutions in making the necessary information readily available to farmers, all grain buyers of Line Elevator Companies associated with the Agricultural Department have been provided with printed copies of cereal variety recommendations.

In order to secure maximum returns, it is necessary to use pure seed of the right variety.

So long as supplies last, copies of recommendations may be obtained from:
 Manitoba—Extension Service, Department of Agriculture, Winnipeg.
 Saskatchewan—Extension Department, University of Saskatchewan, Saskatoon.
 Field Crops Commissioner, Department of Agriculture, Regina.

Alberta—Field Crops Branch, Department of Agriculture, Edmonton.

T.C.A. JANUARY REPORT

Trans-Canada Air Lines carried 4190 passengers in January compared with 4271 in the month of December, according to D. B. Colyer, vice-president. Airmail for the month totalled 83,460 pounds as against 95,513 in the Christmas holiday month. Air express loadings also showed the post holiday decline aggregating 7,689 pounds compared with 9,418 in December. The average passenger journey was 605 miles in January and 554 miles in December.

NEW BULLETINS

A number of new circulars and leaflets are to be furnished by the Department of Agriculture. Among them is one on Flax Production in Alberta, which has been prepared by the Field Crops Branch. The Poultry Branch has issued a leaflet on Fowl Paralysis and Leukemia; another on Disorders of the Cloaca and Vent. These leaflets may be obtained on request to the respective Branches, or from the Agricultural Extension Service, Department of Agriculture, Edmonton.

NEW MOTOR PLATES, ENGLISH STYLE

Alberta's motorists will sport a touch of old British colors this year. Their new license plates will be similar to those perennially used in the Mother Country—black with white numerals. Plates went on sale March 24, the first carload arriving in Edmonton last week. It is reported that the Hamilton manufacturers experienced some difficulty in obtaining metal, but this was overcome in time. It is expected that registration, will eclipse all previous records.

● For the things that are not given to a fighting man with his uniform... things that are not part of his military equipment... things of the spirit... Canada's fighting sons, wherever they may be, rely on you.
 The Government provides them with uniforms, rifles, ammunition—but for comforts—recreations and wholesome opportunity to make their precious moments of leisure a genuine boon... they rely on you.
 Of course you help to buy airplanes, guns, ships, tanks—BUT for the things that express to the soldier the affection and thoughtfulness of the folks back home... he relies on you.
 Six great national organizations labour unceasingly to provide him with those things.
 They can do it only with your money.
 Your money started this work—your money is needed to carry it on. The need is urgent. Be generous.
 Let the volunteer helper who calls on you carry back your pledge of fullest support for our fighting men.

Putting One Over on Dobbins

Poor, old Dobbins, expecting a nice nosebag full of choice oats, gets a jolt when a gas-mask, instead, is placed over his head. But, war is war, and very often a nosebag turns out to be only a gas-mask, after all. U.S. artillery units are simulating precautions against a gas-attack during practice at Fort Ord, Cal.

Your JOB now, Your security after the war, are linked together

Part of your job now is to **SAVE** and **LEND** — to provide the materials that will hasten victory.

THIS IS VITALLY NECESSARY

Your security after the war may depend upon having a back log of savings to meet the post-war adjustment. You do a double job when you invest in **WAR SAVINGS CERTIFICATES**.

Your pennies, quarters, dollars will help to hasten Victory, and will come marching home to bring security when Peace comes.

BUY WAR SAVINGS CERTIFICATES REGULARLY!

This space is donated to the Government of Canada by the
BREWING INDUSTRY OF ALBERTA

USE GOOD SEED

The use of good seed is one of the most important factors in producing crops of good quality and high yield. For nearly 2,000 years the use of good seed has been recognized and recommended by authorities, yet, in spite of this, seed surveys have shown that much inferior seed is still being used.

Good seed must be pure to variety and clean with respect to weed seeds and foreign material. It should have strong vitality, high germination and freedom from disease. According to an experiment recently completed by the Experimental Farm Service at Ottawa, plump, well matured, uniform grain of good germination is preferable for seed purposes to weathered, shrivelled, piebald or rusted grain.

AGENT WANTED

To operate Crossfield Plant for well known **OIL COMPANY**.

APPLICATIONS WILL BE RECEIVED FROM MACHINE AGENTS, GRAIN BUYERS, or others having contact with FARMERS. Light delivery truck required. Apply to Box 25, Chronicle Office

No farmer in Alberta need sow inferior seed. Stocks of good seed are plentiful and prices the lowest for some years. Application to the nearest elevator agent will put a farmer in touch with the Alberta

Crop Improvement Association, an organization which has for its objective the improvement of crops through the use of good seed. In these days when the farmer wishes to lower his income per acre of crop, the use of good seed is one of the first necessities. Poor seed is costly.

Mrs. Black was vigorously powdering her face before going out. "Why do you go to all this trouble?" asked her husband. "Modesty, my dear", was the reply. "I've no desire to shine in public."

What Thailand Gains

The diagonally-shaded areas in this map indicate territory ceded to Thailand by French Indo-China in their frontier dispute. The Mekong River limits much of the new boundary. France retains a considerable part of the Luang-Prabang section (1), which Thailand had demanded originally. The islands of Khone and Khone (2) will be under Thailand sovereignty, but under a joint administration.

Stranger: Have you lived in Bingville long?"

Native: "Have I lived here long? Why, mister, you won't believe it, but I lived here when there wasn't a single gas station in town."

Uncle: "Your writing is shocking for your age, Benjamin! Whatever will you do when you grow up?"

Modern nephew: "Use a type-writer, uncle."

The World of Wheat

By H. G. L. Strange

The Dominion Government has announced its wheat policy for this coming crop year. The Government will endeavor to induce farmers to sow wheat not more than 65 percent of last year's acreage. If this is done almost half of the entire wheat sowings this spring will be on summerfallow.

Here is a wonderful opportunity for farmers to put a large acreage of clean land into good seed, the product of which would be available to sow larger acreages when markets open up after the war.

Because the wheat acreage for each farm will be reduced, all the more important is it that farmers should make every acre bring in the most money. Better seed increases the quality, hence the grade of the grain, and so brings more money to the farmer. In addition, of course, the higher quality wheat becomes more saleable on world markets particularly in those countries which probably will endeavor, after the Peace, to grow large quantities of their own wheat, which being of a comparatively low quality will need some high quality Canadian wheat mixed with it to make a palatable loaf of bread.

It seems, then, that there never was a time better than this spring

British Take Ethiopian Key Town

The British announce the capture of Jijiga (1) strategic eastern Ethiopian town controlling the road to the provincial capital, Harar. An intensive British attack has been launched against Keren (2), important objective in Eritrea. Very latest reports state that important positions south of Keren have already fallen to the British.

for farmers to sow some of their summerfallow to high quality Registered Certified seed.

Following factors have tended to raise price: Chinese interests are actively seeking supplies of U. S. flour—The British are expected to raise the blockade to allow American wheat to enter unoccupied France—Eire is inquiring for American wheat—The latest U. S. weekly crop report reveals unfavorable weather for winter wheat.

Following factors have tended to lower price: The U. S. Lease-Lend Bill includes an item of \$1,200 million for disposal of agricultural and industrial commodities—Good rains have been reported throughout Argentina recently—Combined U. S. winter and spring wheat plantings estimated 2 million acres above 1940—Belgium Rumania and other occupied areas report increased acreage for 1941 grain crops

IN MEMORIAM

FOX—In loving memory of our beloved mother, Mary Ann Fox, who passed away March 31st, 1940.

"And while she lies in peaceful sleep, Her memory we shall always keep."
—Ever remembered by the family.

Frank Laut, M. L. A. for Banff-Cochrane, moved a resolution in the legislature today recommending the return of the \$200, deposited by voters in the Okotoks-High River constituency in the fall of 1937 in a move to recall Premier Aberhart, then member for that constituency.

A boy had shown such a degree of ignorance and mental obtuseness that the teacher was disheartened and finally asked sarcastically: "Do you know whether George Washington was a soldier or a sailor?"

"He was a soldier," answered the urubin, promptly.

"How do you know that?" she persisted.

"Cause I saw a picture of him on the Delaware, and say sailor'd know enough not to stand up in the boat."

Working hand in hand with the fighting forces of Canada and of the rest of the Empire are the scientists of the National Research Council of Ottawa. Already they have made numerous highly important contributions to the war effort, both in the industrial field and in the armed forces. In this photo one of the research workers is shown as he subjects steel helmets to special tests. One has been penetrated by a bullet and the other has resisted it. The scientist is trying to find out why.
